## 2010-2011 <br> School Data Portfolio

$\underset{\text { SCHOOL DISTRICT }}{\text { Methacton }}$

## Preface

This third edition of the School Data Portfolio has been developed in response to an ever-increasing need to have important information readily available as we embrace our belief that decisions are data-driven and involve participation from various stakeholders.

The Methacton School District developed the portfolio to serve as a database of school district information. Principals, guidance counselors, and numerous other professional staff contributed the data contained in this portfolio. Data was also secured from several reports the district submits annually to the Pennsylvania Department of Education.

District administration delivered a public presentation of this booklet at a regularly scheduled board meeting. The presentation captured only select portions of the booklet and was not intended to be a complete overview of the contents.

The information contained within the portfolio, while important, comes second to the more important mission of "response." While Methacton enjoys a history of "educational excellence" only an enthusiastic "response" will ensure that the District shall prosper in its pursuit of academic achievement at the highest level.

The administration hopes the data compiled in this booklet will serve to allow the District to do what only the best districts do: React responsively to learners' needs!

Special thanks are extended to our Board of School Directors, particularly officers Marijane Barbone, president and Grant T. Schanbacher, vice-president, for providing the support and time to present the document and data. Thanks are also extended to all district personnel who assisted Angela Linch, Coordinator of School and Community Information, in compiling the portfolio as the Methacton School District strives for excellence.

The District keeps copies of the School Data Portfolio in each school library and in the District Office for public review.

Persons with questions or comments should contact Dr. Timothy J. Quinn, Superintendent, at 610-489-5000, ext. 15001 or tquinn@methacton.org

## The Methacton Mission

The Methacton School District, with its strong tradition of excellence, will challenge all students to achieve their greatest potential and create a vibrant community of learners who appreciate diversity and will lead and succeed in a dynamic global society.

Learn, Lead, Succeed - Together

## The Methacton Vision

The Vision of the Methacton School District is to prepare graduates to thrive in an increasingly complex world and contribute as productive members of society.

By offering a rigorous curriculum, we will,

- Foster adaptability, courage, independence, and common decency in a dynamic world that requires selfrenewal;
- Create civic-minded individuals who practice responsible ethical and moral decision making with a broad understanding of their large-scale impact;
- Teach students how to process and prioritize mass volumes of information, balance technology with tradition and establish ambitious standards.

## Shared Values

## The Methacton School District:

- Believes that community and family are the foundation for a child's growth and development.
- Believes education is the shared responsibility of the student, school, family, and community.
- Believes high ethical standards are critical to effective citizenship.
- Believes that all students should be given equal opportunity to achieve their greatest potential.
- Believes that all students should be provided a full, balanced standards-based curriculum at all levels, supported with pedagogical strategies that best address individual learning needs.
- Believes learning is a life-long process.
- Believes that an effective education should be enriched by the arts, service, athletics and extra- curricular activities and should empower students to shape their futures.
- Believes that everyone benefits when all persons respect and appreciate diversity in a global society.
- Believes an emotionally and physically safe environment is essential for learning.
- Believes that open and honest communication promotes mutual understanding and trust.
- Believes the use of state-of-the-art and emerging technology is essential to quality education.
- Believes in providing employees with encouragement, time, resources and professional development in best practices to meet high expectations for continuous improvement.

## TABLE OF CONTENTS

Introduction
A. Preface ..... Pg. i
B. Mission, Vision, and Shared Values Statement ..... Pg. ii
C. Table of Contents ..... Pg. iii
Section One: Student Data
A. Student Enrollment Data ..... Pg. 1
B. Class Sizes ..... Pg. 1
C. Attendance Rates ..... Pg. 2
D. Graduation Rates ..... Pg. 2
E. Drop-Out Rates ..... Pg. 2
F. Special Education Enrollment ..... Pg. 2
G. Charter School Enrollment ..... Pg. 2
H. Home School Enrollment ..... Pg. 2
I. North Montco Technical Career Center Enrollment ..... Pg. 3
J. Grade Level Retentions ..... Pg. 3
K. Ethnic Data ..... Pg. 4
L. English Language Learners By Grade ..... Pg. 5
M. English Language Learners By Country/Language ..... Pg. 5
Section Two: Participation Data
A. Athletic Participation ..... Pg. 6-7
B. Music Participation ..... Pg. 8-9
C. Library Usage ..... Pg. 9
D. Methacton Intervention And Prevention Program By Grade ..... Pg. 10
E. Methacton Intervention And Prevention Program By Reason For Referral ..... Pg. 10
Section Three: Graduate Data
A. Plans For Class Of 2010 ..... Pg. 11
B. Recent Graduating Classes ..... Pg. 11
C. Colleges Accepting Members Of Class Of 2010 and Attended By Class Of 2010 ..... Pg. 12-19
Section Four: Assessment Data
A. Pennsylvania System Of School Assessment ..... Pg. 20-25
B. STAR Reading Data ..... Pg. 26-29
C. Woodland Daze Assessment Data ..... Pg. 30
D. Adequate Yearly Progress ..... Pg. 31
E. Advanced Placement Tests ..... Pg. 32
F. Scholastic Aptitude Test ..... Pg. 33
G. National Merit Scholarship Finalists ..... Pg. 33
Section Five: Performance Indicator Data
A. Return on Spending Index ..... Pg. 34
B. Performance Cost Index ..... Pg. 34
C. Instructional Expenditures ..... Pg. 34
D. Operating Expenditures by Function ..... Pg. 34
Section Six: Staff Data
A. Number of Staff by Function ..... Pg. 35
B. Professional Staff Education ..... Pg. 35
C. Professional Staff Years of Service ..... Pg. 35
D. Number of Professional Staff Hired Last Five Years ..... Pg. 36
E. Professional Staff Hired Last Five Years Experience and Graduate Degrees ..... Pg. 36
F. Professional Staff Hired Last Five Years-Undergraduate Degree ..... Pg. 36
Section Seven: Alumni Data
A. Response Rate By Graduation Class ..... Pg. 37
B. Class of 2009 ..... Pg. 37-39
C. Class of 2005 ..... Pg. 40

## STUDENT ENROLLMENT DATA

FROM OCTOBER 1 ENROLLMENT

## GRADE 2 - STAR READING DATA*

The following tables represent "Grade Level Equivalent" distribution summary data for second graders in assessed in the fall at each of Methacton's five elementary schools. The number of students who performed at the indicated grade level equivalent is indicated in the \#Students column, and the percentage of that school's second grade performing at the indicated grade level equivalent is indicated in the \%Fall column. This data will be updated to show growth after the spring assessments.

*A grade equivalent (GE) is a score reported on norm-referenced tests that allows educators and parents to compare students based on the performance of other students relative to the school year. Based on a 9-month school year, the score represents a period during the school year, displayed as a number to show a grade and a month. For example, a score of 5.8 represents a performance level typical of fifth-grade students in the eighth month (April) of the school year. It is important to note that grade equivalent scores outside the current grade are common and should be interpreted with caution. For example, a fifth-grade student could receive a grade equivalent score of 7.4. This does not mean the student can perform seventh-grade work - the student would not have been exposed to seventh-grade content, nor would a fifth-grade test contain seventh-grade content. It suggests that a typical seventh grader in the fourth month would have received the same score if seventh graders had taken the fifth-grade test.

*A grade equivalent (GE) is a score reported on norm-referenced tests that allows educators and parents to compare students based on the performance of other students relative to the school year. Based on a 9-month school year, the score represents a period during the school year, displayed as a number to show a grade and a month. For example, a score of 5.8 represents a performance level typical of fifth-grade students in the eighth month (April) of the school year. It is important to note that grade equivalent scores outside the current grade are common and should be interpreted with caution. For example, a fifth-grade student could receive a grade equivalent score of 7.4. This does not mean the student can perform seventh-grade work - the student would not have been exposed to seventh-grade content, nor would a fifth-grade test contain seventh-grade content. It suggests that a typical seventh grader in the fourth month would have received the same score if seventh graders had taken the fifth-grade test.

## WOODLAND DAZE ASSESSMENT DATA

Daze, a benchmark assessment for use with the DIBELS universal screening tool, is a measurement tool for reading comprehension in third through sixth grade students. Woodland is piloting the Daze assessment in third and fourth grade during the 2010-2011 school year. The numbers below reflect the total number of students assessed this fall whose results were within the Benchmark, Strategic and Intensive scoring ranges.* This data will be updated to show growth after the Spring assessments.

| Third Grade | Fall | Spring |
| :--- | :---: | :---: |
| \# Benchmark | 50 |  |
| \# Strategic | 5 | 7 |
| \# Intensive | 62 |  |
| Total Number of Students Assessed |  |  |

| Fourth Grade | Fall | Spring |
| :---: | :---: | :---: |
| \# Benchmark | 53 | As noted above, this data will be |
| \# Strategic | 16 |  |
| \# Intensive | 7 |  |
| Total Number of Students Assessed | 76 |  |

* Benchmark Goals and Cut Points for Risk

DIBELS benchmark goals are empirically derived, criterion-referenced target scores that represent adequate reading progress. A benchmark goal indicates a level of skill where the student is likely to achieve the next DIBELS benchmark goal and other important reading outcomes. Benchmark goals for DIBELS are based on research that examines the predictive validity of a score on a measure at a particular point in time compared to later DIBELS measures and external outcome assessments.

If a student achieves a benchmark goal, then the odds are in favor of that student achieving later reading outcomes if the student receives research-based core classroom instruction (Core Support).

The cut points for risk indicate a level of skill below which the student is unlikely to achieve subsequent reading goals without receiving additional, targeted instructional support. Students with scores below the cut point for risk (well below the benchmark goal) are identified as likely to need Intensive Support. Because students needing intensive support are likely to have individual and sometimes unique needs, their progress is monitored frequently and intervention is modified dynamically to ensure adequate progress.

Students are likely to need Strategic Support when their scores are below the benchmark goal and at or above the cut point for risk. In this range, a student's future performance is harder to predict. These students should be monitored regularly to ensure they are making adequate progress, and should receive increased or modified support if necessary to achieve subsequent reading goals.

Score Level Need for Support

| At or Above Benchmark | scores at or above the benchmark goal | Core Support |
| :--- | :--- | :--- |
| Below Benchmark - Strategic | scores below the benchmark goal and at or <br> above the cut point for risk | Strategic Support |
| Well Below Benchmark - Intensive | scores below the cut point for risk | Intensive Support |

| Worcester Elementary | Made AYP | Made AYP | Made AYP | Made AYP | Made AYP |  |  |  |  |  |

* Making Progress SI - II indicates that the school is "Making Progress, School Improvement II." This designates that Methacton High School passed AYP for the first year of 2-year probation period. MHS must make AYP again next year to be considered back on track.
** SI - II indicates that the school is in "School Improvement II." This means that Methacton High School did not meet AYP measures for three consecutive years in the same subject in one subgroup. This indicates an improvement plan must be developed, and technical assistance will be offered. In addition, supplemental education services, such as tutoring, must be offered at Methacton's expense. For a school to meet AYP, all AYP measures must be met. Methacton's IEP subgroup is the group that did not meet AYP targets in reading and math.

For more information about AYP, visit http://paayp.emetric.net.

# RETURN ON SPENDING INDEX* <br> FROM SCHOOL MATTERS - A SERVICE OF STANDARD AND POORS 

| 2007 | MSD |  | State |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Return on Spending Index (RoSI) | 8.8 | 8.0 | 7.4 |

RoSI is a measure of the average return, in terms of student proficiency, on the money spent by a school district on core activities. Values are expressed in units that indicate the percentage of students achieving proficiency in reading and math for every $\$ 1,000$ spent per student on core operations. Generally, the higher the Return on Spending Index value the better the return on spending, relative to school districts with similar challenges and spending levels.

A measure of the cost ass ch ted $w$ a
 proficiency in reading and math. Generally, the lower the PCI value, the more cost-effective the achieved student performance levels, particularly for school districts with similar challenges and student performance levels.

The amount of money spent on activities occurring directly between teachers and students. Instruction Expenditures include activities within a classroom and other teacher-student settings covering regular, special, and vocational programs offered during the school year and summer school. Instruction Expenditures include payments from all funds for salaries. employee jene 's, uppl es, r ate aal ai y' ontractua servi es el' ed t ins uo on.
