Google Apps for Education

GAFE (Google Apps for Education) is a suite of free web productivity applications and cloud-based storage that can be accessed from any web browser and is tailored for use in K-12 schools.

Why does Methacton use GAFE?

-Safe, secure, and FREE web-based environment, no Ads

-Supports other District initiatives and projects

-Student Email Accounts (Grades 5-12)

-Supports Bring Your Own Device (BYOD) with free web based apps

-Hybrid/Online Courses

-Ability to collaborate and share information

-Through the education version, data belongs to the user and tools enable the user to control

-Supports career and post-secondary education readiness, adopted in higher education and business

-Relevance to all levels, K-12
